ASCP continuing education activities are accepted by California, Florida, and many other states for licensure of clinical laboratory personnel. ASCP designates these activities for the indicated number of Continuing Medical Laboratory Education (CMLE) credit hours. ASCP CMLE credit hours are acceptable to meet the continuing education requirements for the ASCP Board of Registry Certification Maintenance Program. All ASCP CMLE programs are conducted at intermediate to advanced levels of learning. Continuing medical education (CME) activities offered by ASCP are acceptable for the American Board of Pathology’s Maintenance of Certification Program. All ASCP CME activities are evaluated by participants for the presence of any commercial bias and this input is utilized for subsequent CME planning decisions.

Accreditation Statement: The American Society for Clinical Pathology (ASCP) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education (CME) for physicians. This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME).

Credit Designation Statement: The American Society for Clinical Pathology (ASCP) designates this enduring material for a maximum of 1 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Program Content and Disclosures: The primary purpose of this activity is educational and the comments, opinions, and/or recommendations expressed by the faculty or authors are their own and not those of the ASCP. There may be, on occasion, changes in faculty and program content. In order to ensure balance, independence, objectivity, and scientific rigor in all its educational activities, and in accordance with ACCME Standards, the ASCP requires all individuals in positions to influence and/or control the content of ASCP CME activities to disclose whether they do or do not have any relevant financial relationships with proprietary entities producing health care goods or services that are discussed in the CME activities, with the exemption of non-profit or government organizations and non-health care related companies. These relationships are reviewed and any identified conflicts of interest are resolved prior to the activity.

This program is published by: The American Society for Clinical Pathology, 33 West Monroe, Suite 1600, Chicago, Illinois 60603.
